RATIONALE

Company mission: **PIROC CASTELLBELL, S.L.P.** was founded at the end of 2022 by a group of **industrial, mechanical and electronic engineers** who had a common goal: to continue working together and thus join **forces and knowledge**.

The organization is mainly based on **horizontality between employees**. There is no defined hierarchy as such, but each employee has his or her own role and **independence** to work in his or her own speciality.

Thus, the company's main focus is on the development of engineering projects, such as expert opinions, drafting of projects, audits, among others.

Vision:

Engineers are people with a vision of the world and technical knowledge that makes them unique in their kind and thanks to their *raison d'être*, today's society can enjoy technological comforts which have been invented and developed by them.

That said, the company **PIROC CASTELLBELL, S.L.P.** formed by the group of engineers mentioned above, has its eye focused on providing technical **knowledge and updated** in each of the projects developed by the company.

The company PIROC CASTELLBELL SLP believes that the role of the engineer for the world in which we live is key to its good development, both in the short and long term.

Therefore, each of the projects that are developed in our company are carried out in a precise and detailed way, always fulfilling the objectives of both the client and the project. In order to guarantee a prosperous and cutting-edge future for both the company and the engineering community.
